Washington, DC 20515

Re: OH-32 & Herold Road Improvements

Dear Congressman Wenstrup:

Clermont County is a growing county with tremendous growth potential with a population of over 210,000 people and the 14th largest county in Ohio. Already a home to 10,000 businesses, Clermont County has seen recent investments made in the county by companies such as Nestle Purina and Huhtamaki, Inc. The region where Clermont County is located outranks New York City, Boston, Chicago and Los Angeles in the number of Fortune 500 headquarters per million residents. Clermont County's convenient access to Interstates 71 and 75 via the I-275 beltway provides the opportunity for the county to take advantage of the economic growth potential of Greater Cincinnati. Our residents have access to 20 universities, colleges and vocational school districts within an hour's drive.

It is for these reasons that I support a recently submitted \$500,000 Member Directed Spending request related to the design of improvements to OH-32 and Herold Road in the Village of Batavia. These improvements, which would convert this intersection into a right-in/right out, would greatly enhance public safety by reducing accidents. This project is a priority of the county and would help make Clermont County a more attractive place to live, work, and raise a family.

We appreciate your support for this important project for Clermont County and our region.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeremy Evans".

Re: Half Acre & OH-32 Park Improvements

Dear Congressman Wenstrup:

Clermont County is a growing county with tremendous growth potential with a population of over 210,000 people and the 14th largest county in Ohio. Already a home to 10,000 businesses, Clermont County has seen recent investments made in the county by companies such as Nestle Purina and Huhtamaki, Inc. The region where Clermont County is located outranks New York City, Boston, Chicago and Los Angeles in the number of Fortune 500 headquarters per million residents. Clermont County's convenient access to Interstates 71 and 75 via the I-275 beltway provides the opportunity for the county to take advantage of the economic growth potential of Greater Cincinnati. Our residents have access to 20 universities, colleges and vocational school districts within an hour's drive.

It is for these reasons that I support a recently submitted \$1.3 million Member Directed Spending request that would be utilized by the Clermont County Community Improvement Corporation to move a 24 inch sewer line from the center of a property located at the intersection of Half Acre and OH-32 in Williamsburg Township and provide natural gas service to the property. This is an area on the east side of the county that is more rural, with a population of 5,700 people, and this improvement would make Williamsburg Township a more attractive place to live, work, and raise a family.

We appreciate your support for this important project for Clermont County and our region.

Sincerely,

A handwritten signature in black ink that reads "Adam C. Bird". The signature is written in a cursive, flowing style.

Re: Stonelick / Newtonsville EMS Training Center

Dear Congressman Wenstrup:

Clermont County is a growing county with tremendous growth potential with a population of over 210,000 people and the 14th largest county in Ohio. Already a home to 10,000 businesses, Clermont County has seen recent investments made in the county by companies such as Nestle Purina and Huhtamaki, Inc. The region where Clermont County is located outranks New York City, Boston, Chicago and Los Angeles in the number of Fortune 500 headquarters per million residents. Clermont County's convenient access to Interstates 71 and 75 via the I-275 beltway provides the opportunity for the county to take advantage of the economic growth potential of Greater Cincinnati. Our residents have access to 20 universities, colleges and vocational school districts within an hour's drive.

It is for these reasons that I support a recently submitted \$60,000 Member Directed Spending request that would help construct a rural fire and safety training facility in Stonelick Township. The residents of Stonelick Township with a population of nearly 6,000 residents deserve to have well-trained firefighters and paramedics during times of emergency, which is critical to the growth of this area. In addition, this investment will result in providing critical workforce development to a rural area.

We appreciate your support for this important project for Clermont County and our region.

Sincerely,

A handwritten signature in black ink that reads "Adam C. Bird".

Re: Haskell Lane / East Fork Bridge

Dear Congressman Wenstrup:

Clermont County is a growing county with tremendous growth potential with a population of over 210,000 people and the 14th largest county in Ohio. Already a home to 10,000 businesses, Clermont County has seen recent investments made in the county by companies such as Nestle Purina and Huhtamaki, Inc. The region where Clermont County is located outranks New York City, Boston, Chicago and Los Angeles in the number of Fortune 500 headquarters per million residents. Clermont County's convenient access to Interstates 71 and 75 via the I-275 beltway provides the opportunity for the county to take advantage of the economic growth potential of Greater Cincinnati. Our residents have access to 20 universities, colleges and vocational school districts within an hour's drive.

It is for these reasons that I support a recently submitted Member Directed Spending request construct a bridge from State Route 22 across from the OH-32 access ramps over the East Fork River in the Village of Batavia. These improvements, which will connect Haskell Lane and the Olympic Fields property, would greatly enhance increase mobility in the Village of Batavia to benefit both residents and businesses.

We appreciate your support for this important project for Clermont County and our region.

Sincerely,

A handwritten signature in black ink that reads "Adam C. Bird". The signature is written in a cursive style.

Re: New Richmond Downtown Connectivity

Dear Congressman Wenstrup:

Clermont County is a growing county with tremendous growth potential with a population of over 210,000 people and the 14th largest county in Ohio. Already a home to 10,000 businesses, Clermont County has seen recent investments made in the county by companies such as Nestle Purina and Huhtamaki, Inc. The region where Clermont County is located outranks New York City, Boston, Chicago and Los Angeles in the number of Fortune 500 headquarters per million residents. Clermont County's convenient access to Interstates 71 and 75 via the I-275 beltway provides the opportunity for the county to take advantage of the economic growth potential of Greater Cincinnati. Our residents have access to 20 universities, colleges and vocational school districts within an hour's drive.

It is for these reasons that I support a recently submitted Member Directed Spending request for key improvements to Downtown New Richmond, including US-52 roundabouts and bike trail connections. These improvements are part of a larger plan to increase commerce and tourism to this Ohio River community that is undergoing plans to improve the waterfront through Liberty Landing Park and a canoe and kayak launch.

We appreciate your support for this important project for Clermont County and our region.

Sincerely,

A handwritten signature in black ink that reads "Adam C. Bird". The signature is written in a cursive, flowing style.

Re: Herold Road & State Route 32, Batavia Township, Clermont County

Dear Congressman Wenstrup,

Please accept this letter as support for the proposed transportation improvements at the intersection of State Route 32 and Herold Road, and a new connector road linking Herold Road and Batavia Road just north of State Route 32 in Batavia Township. This new road and the intersection improvements will provide a more accessible and safer route to State Route 32.

These improvements are sorely needed and will enhance safety for all the residents who live in the area and the Ohio residents who drive through on State Route 32.

Per the attached aerial map, the property in the proposed project area is currently zoned agriculture. These improvements could drive economic development in the area with the increased accessibility to the property and the close proximity to State Route 32.

We hope this project receives a favorable response and is funded for future development.

Thanks

James E. Sauls, Jr.

Rex A. Parsons
